During the Golden Age of Islam, especially during the 9th and 10th centuries, mathematics saw many important innovations building on Greek mathematics. The most notable achievement of Islamic mathematics was the development of algebra. Other notable achievements of the Islamic period are advances in spherical trigonometry and the addition of the decimal point to the Arabic numeral system.

Statistics add realism to your speech. It's okay to talk about big ideas in abstract terms, but you also have to make it real. Numbers and facts are one way to staple your speech arguments to reality (thus boosting logos). For example, claiming that correctly setting your tire pressure will increase your fuel mileage is one thing.
