Tone: The tone we use tells the truth even when our words donâ€™t, even when weâ€™re unaware of that truth ourselves. It is our tone to which others respond (Lickerman, 2010). Tone is an essential part of Rogerâ€™s success as a communicator. Albert Mehrabian Professor Emeritus of Psychology, UCLA, identified tone as one of the most vital elements of successful communication (2015, Davies) Tone ...

Models of communication are conceptual models used to explain the human communication process. The first major model for communication was developed in 1948 by Claude Elwood Shannon and published with an introduction by Warren Weaver for Bell Laboratories. Following the basic concept, communication is the process of sending and receiving messages or transferring information from one part ...

About Active Listening. The way to improve your listening skills is to practice "active listening." This is where you make a conscious effort to hear not only the words that another person is saying but, more importantly, the complete message being communicated.. In order to do this you must pay attention to the other person very carefully.
