In Life After Life Raymond Moody investigates more than one hundred case studies of people who experienced "clinical death" and were subsequently revived. First published in 1975, this classic exploration of life after death started a revolution in popular attitudes about the afterlife and established Dr. Moody as the world's leading authority in the field of near-death experiences.

Research has shown that marijuana's negative effects on attention, memory, and learning can last for days or weeks after the acute effects of the drug wear off, depending on the person's history with the drug. 53 Consequently, someone who smokes marijuana daily may be functioning at a reduced intellectual level most or all of the time. . Considerable evidence suggests that students who ...
