Coastal Ecologist: A scientist who studies coastal processes, plant, and animals, and their interactions with the living and nonliving environment.

### **Abiotic (jst): A scientist who studies societies and stream**

In biology and ecology, abiotic components or abiotic factors are non-living chemical and physical parts of the environment that affect living organisms and the functioning of ecosystems. Abiotic factors and the phenomena associated with them underpin all biology. Abiotic components include physical conditions and non-living resources that affect living organisms in terms of growth, maintenance ...
