Cutting Tool Engineering magazine, published 12 times a year by CTE Publications Inc., helps manufacturing professionals enhance the productivity of their companies' cutting and grinding operations.

Cutting Tool Engineering Magazine | Cutting Tool Engineering

A tool bit is a non-rotary cutting tool used in metal lathes, shapers, and planers. Such cutters are also often referred to by the set-phrase name of single-point cutting tool, as distinguished from other cutting tools such as a saw or water jet cutter. The cutting edge is ground to suit a particular machining operation and may be resharpened or reshaped as needed.

This statistic shows the world's largest manufacturers of machine tools as of FY 2014 (or latest year available). Japan-based Jtekt generated FY 2014 machine tool revenue of around 1.6 billion U.S ...

Largest machine tool manufacturers worldwide | Statista

Many of our finest Manufacturers and Machine Shops have closed their doors because of the lack of support from our own government. Professional politicians with little or no business experience have taken their toll on our industry. Our web site directory started on July 4th 2000 and many of our friends have closed their doors since then...
