Projects don't manage themselves. Professional project management requires the development of a plan that outlines how it will be managed. According to the Project Management Body of Knowledge (section 4.2), the project management plan fulfills this purpose. Although it includes any and all items that define the management of the project, there are certain standard items.

- Project schedules put your juggling skills to the test. When you build a schedule, you try to complete the project scope by its deadline with the resources management gives you without blowing the project budget. To add to the challenge, the schedule keeps changing as work progresses. So your schedule has to be flexible, too.
