Home | Applied Mathematics & Statistics

An actuary is a business professional who deals with the measurement and management of risk and uncertainty (BeAnActuary 2011a).The name of the corresponding field is actuarial science.These risks can affect both sides of the balance sheet and require asset management, liability management, and valuation skills (BeAnActuary 2011b).Actuaries provide assessments of financial security systems ...

Actuary - Wikipedia

The actuarial credentialing and exam process usually requires passing a rigorous series of professional examinations, most often taking several years in total, before one can become recognized as a credentialed actuary.In some countries, such as Denmark, most study takes place in a university setting. In others, such as the U.S., most study takes place during employment through a series of ...

Actuarial credentialing and exams - Wikipedia

REQUIREMENTS FOR A MAJOR IN MATHEMATICS. Mathematics is the study of quantity, structure and space. While mathematics is important in understanding and influencing the physical world around us, mathematics can also be curiosity-driven and enjoyed without the requirement of a particular application.

Mathematical and Computational Sciences | Programs and

Mathematics is one of the oldest disciplines of study. For all its antiquity, however, it is a modern, rapidly growing field. Only 70 years ago, mathematics might have been said to consist of algebra, analysis, number theory and geometry.

Mathematics & Statistics | Smith College

Mathematics is a broad discipline with many diverse applications in physical sciences, life sciences, and engineering as well as social and managerial sciences.
