Shrimp are swimming crustaceans with long narrow muscular abdomens and long antennae. Unlike crabs and lobsters, shrimp have well developed pleopods (swimmerets) and slender walking legs; they are more adapted for swimming than walking. Historically, it was the distinction between walking and swimming that formed the primary taxonomic division into the former suborders Natantia and Reptantia.

Here you will NOT find the typical occult –dark fluffy– garbage that people are packaging and selling in pdf™s and cheap chapbooks. Oh trust me, I have been asked by several publishers like Original Publications to write for them and do the inexpensive chapbooks but I prefer to control what I write and I like to actually make more than \$1/book since I too have mouths to feed.

Their disproportionate participation in communism, Marxism, and socialism. Marxism is an exemplar of a universalist ideology in which ethnic and nationalist barriers within the society and indeed between societies are eventually removed in the interests of social harmony and a sense of communal interest.
