representation and meaning in pdf

Representation is the use of signs that stand in for and take the place of something else. It is through representation that people organize the world and reality through the act of naming its elements. Signs are arranged in order to form semantic constructions and express relations.

Representation (arts) - Wikipedia

Proportional representation (PR) characterizes electoral systems in which divisions in an electorate are reflected proportionately in the elected body. If $n\%$ of the electorate support a particular political party, then roughly $n\%$ of seats will be won by that party. The essence of such systems is that all votes contribute to the result - not just a plurality, or a bare majority.

Temperance movements in Britain developed in a parallel, but significantly different, direction to those in the United States. Although there was a desire to control drinking by legislation, moral suasion was much more central and tended to fall into particular categories of argumentation. The discourses of temperance drew on religion, but developed their own categories, myths, and iconography ...
