

space travel and health pdf

Space exploration is the discovery and exploration of celestial structures in outer space by means of evolving and growing space technology. While the study of space is carried out mainly by astronomers with telescopes, the physical exploration of space is conducted both by unmanned robotic space probes and human spaceflight.. While the observation of objects in space, known as astronomy ...

Space exploration - Wikipedia

Space tourism is space travel for recreational, leisure or business [citation needed] purposes. There are several different types of space tourism, including orbital, suborbital and lunar space tourism. To date, orbital space tourism has been performed only by the Russian Space Agency. [citation needed] Work also continues towards developing suborbital space tourism vehicles.
