The news feed is the primary system through which users are exposed to content posted on the network. Using a secret method (initially known as EdgeRank), Facebook selects a handful of updates to actually show users every time they visit their feed, out of an average of 1500 updates they can potentially receive.. On September 6, 2006, Ruchi Sanghvi announced a new home page feature called News ...

Correlations don't imply causality. Completely ignore the question of whether Facebook works (assume we are taking about Ren Ren or Google+). Focus on the fact that this was the launch of a powerful new new product via a continent-wide rebranding campaign using massive online and offline media buys.

The influence of social media platforms and technology companies is having a greater effect on American journalism than even the shift from print to digital. There is a rapid takeover of traditional publishers'™ roles by companies including Facebook, Snapchat, Google, and Twitter that shows no sign of slowing, and which raises serious questions over how the costs of journalism will be supported.
