The Invention of Air is a book of world-changing ideas wrapped around a compelling narrative, a story of genius and violence and friendship in the midst of sweeping historical change that provokes us to recast our understanding of the Founding Fathers.

The Invention of Air by Steven Johnson

This is an excellent contribution to recent books on Joseph Priestley (see the review of Rivers, I. and Wykes, D.L. (eds.): 2008, Joseph Priestley: Scientist, Philosopher, and Theologian, in the November 2008 issue of the IHPST newsletter). Priestley is undeservedly overlooked by most scholars; and is just about entirely ignored by science teachers, for whom he appears, if at all, as a footnote ...
