Vision and mission. The American Kidney Fund's vision is a world without kidney disease. Until that day comes, we believe that every kidney patient should have access to health care, and every person at risk for

kidney disease should be empowered to prevent it.

About Us - American Kidney Fund (AKF)

The ketogenic diet is a high-fat, adequate-protein, low-carbohydrate diet that in medicine is used primarily to treat difficult-to-control (refractory) epilepsy in children. The diet forces the body to burn fats rather than carbohydrates. Normally, the carbohydrates contained in food are converted into glucose, which is then transported around the body and is particularly important in fueling ...
