wildlife research and conservation. The training was made possible by a generous donation from Texaco Foundation USA. Using a trail map developed by Dr. Rabinowitz's "Wildlife Field Research and Conservation Training Manual" (RABINOWITZ's 1993) the

### **Wildlife Field Research and Conservation Training**

Field research, field studies, or fieldwork is the collection of raw data outside a laboratory, library, or workplace setting. The approaches and methods used in field research vary across disciplines. For example, biologists who conduct field research may simply observe animals interacting with their environments,

Uncontrolled hunting of wildlife in the dispersal and game control areas outside the parks is prevalent, and is possibly endangering critical wildlife species. Human-wildlife conflict is equally rampant, further compromising the future of wildlife conservation, local livelihoods and harmonious co-existence between locals and wildlife.
